ASSESSMENT NOTICE.

SOUTH SIDE DRAIN DITCH COMPANY.
Location of Canal, Washoe county, Nevada. Principal place of business, Reno, Washoe county, Nevada.

Notice is hereby given that at a meeting of the Board of Trustees of the above named Company, held on the 12th day of March, A. D. 1883, an assessment (No. 2) of twenty cents per share was levied on each and every share of the capital stock of the company, represented by each acre of land benefited by said ditch, payable immediately in U. S. gold coin, to John H. Williams, Secretary and Treasurer, at his office in the Court House, Reno, Nevada. Any stock upon which this assessment shall remain unpaid on the 21st day of April, 1883, shall be delinquent and unless previously paid will be sold at public auction, and such other proceedings be had against the lands benefited as may be necessary, by the Secretary of said Company at his office on Saturday, the 25th day of May, 1883, at 2 o'clock P. M. of that day, to pay such delinquent assessment, together with costs and expenses of sale and suit.

By order of the Board of Trustees,
JNO. B. WILLIAMS, Sec'y.
Reno, Nev., March 14, 1883.

At a meeting of the Board of Trustees of the above named company, held on the 14th day of March, A. D. 1883, it was ordered by the Trustees that assessment No. 2, of twenty cents per share, levied March 12th, 1883, be reduced to ten cents per share, delinquent April 21st, 1883.

By order of the Board of Trustees,
JNO. B. WILLIAMS, Secretary.
Reno, Nev., March 27th, 1883.

NOTICE.

IN SEVENTH JUDICIAL DISTRICT COURT of the State of Nevada, in and for Washoe county. In the matter of the estate and guardianship of R. H. HARD DOE, a minor.

Notice is hereby given that R. S. Davis, as a person interested in and a friend of the above minor, having filed his petition in this Court praying that Otto Hartung be appointed a guardian of the person and estate of the above minor, Richard Doe, whose true name is unknown to petitioner, and which said minor was abandoned by its supposed mother, on the 25th day of February, A. D. 1883, at the Depot Hotel, at Reno, Washoe county, State of Nevada, and the hearing of the same has been fixed by this Court for Friday, the 20th day of April, A. D. 1883, at 10 o'clock A. M. of said day at the Court room of said Court, at Reno, Washoe county, State of Nevada.

Now, all persons interested in said minor and said petition are notified to appear there and there to show cause, if any they have, why the said petition should not be granted.

R. S. OSBURN, Clerk.
Reno, Nev., April 9th, 1883-18.

ASSESSMENT NOTICE.

OFFICE OF THE GLENDALE IRRIGATING DITCH Co., corporation. Principal place of business, Reno, Nev. Location of works, Washoe county, Nev.

Notice is hereby given that at a meeting of the Trustees of the Glendale Irrigating Ditch Co., held on the 20th of March, 1883, at the office of the Co., an assessment (No. 3) of fifteen dollars per share was levied on each and every share of the capital stock of the Co., payable immediately in U. S. gold coin.

Any stock upon which said assessment shall remain unpaid on the 15th of April, 1883, shall be declared delinquent and advertised for sale, and unless payment be made before, will be sold on the 15th day of May, 1883, to pay said delinquent assessment, together with costs of advertising and expense of sale.

FRANK E. EVANS, Secretary.
Reno, March 12th, 1883.

NOTICE!

NOTICE IS HEREBY GIVEN TO ANTOINE Dragovich, co-owner, with the undersigned in the Golden Wheel mine, located in Pyramid Mining District, Washoe county, Nevada, that he, the undersigned, has performed work and labor, and made improvements upon said mine, in the manner and as required by the Mining Statute of May 10th, 1872, to the amount of one hundred dollars, for the year 1882, and you are hereby required as such co-owner, to contribute your proportion of said expenditure, to wit: the sum of fifty dollars, within ninety days from the date of this notice.

DR. SPINNEY

NO. 11 KEARNEY ST.

Treats All Chronic and Special Diseases.

YOUNG MEN.

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every cure of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight stinging or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and ropy appearance. There are many men who do of this difficulty, ignorant of the cause, which is the second stage of Seminal Weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genital-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, 25.

Call or address,

DR. SPINNEY & CO.,

No. 11 Kearney St., San Francisco

P. S.—For private diseases of short standing a full course of medicine, sufficient for a cure, with all instructions, will be sent to any address on receipt of \$10.00.

TUTT'S PILLS

SYMPTOMS OF A TORPID LIVER

From April to June is the season of the year when the liver is most active, and it is during this time that the system is most susceptible to the influence of the liver. The symptoms of a torpid liver are, a feeling of fullness and heaviness in the stomach, a loss of appetite, a feeling of sickness, a loss of energy, a feeling of weakness, a feeling of depression, a feeling of irritability, a feeling of restlessness, a feeling of uneasiness, a feeling of discomfort, a feeling of pain, a feeling of distress, a feeling of suffering, a feeling of agony, a feeling of torment, a feeling of torture, a feeling of martyrdom, a feeling of sacrifice, a feeling of devotion, a feeling of love, a feeling of affection, a feeling of friendship, a feeling of brotherly love, a feeling of sisterly love, a feeling of parental love, a feeling of filial piety, a feeling of respect, a feeling of honor, a feeling of glory, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of happiness, a feeling of joy, a feeling of bliss, a feeling of ecstasy, a feeling of rapture, a feeling of exultation, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of happiness, a feeling of joy, a feeling of bliss, a feeling of ecstasy, a feeling of rapture, a feeling of exultation, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of happiness, a feeling of joy, a feeling of bliss, a feeling of ecstasy, a feeling of rapture, a feeling of exultation, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of happiness, a feeling of joy, a feeling of bliss, a feeling of ecstasy, a feeling of rapture, a feeling of exultation, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of happiness, a feeling of joy, a feeling of bliss, a feeling of ecstasy, a feeling of rapture, a feeling of exultation, a feeling of triumph, a feeling of success, a feeling of achievement, a feeling of accomplishment, a feeling of satisfaction, a feeling of contentment, a feeling of peace, a feeling of

NEGLECTED SERVANTS.

The work of registration for the August election in Utah is being delayed by the dilatoriness of some of the members of the Utah Commission, who have not yet put in an appearance at Salt Lake. In order that capable men might be found to serve upon the Commission the salary was placed at such a figure as was thought ample to secure men who would devote their time and ability to the performance of the labors required from them, but this result has not been accomplished, and it would seem proper for those whose private affairs are of such magnitude as to interfere with their public duties to resign and give the President the opportunity to appoint others who will devote their whole time to the public service. The gentlemen who compose the Commission are first-class men, and undoubtedly competent to discharge the duties of their office, but in justice to themselves should either take up their permanent residence in Utah and attend to their duties, or step down and out.

THE ASSESSMENT OF CATTLE.

The Supreme Court decision in the case of Barnes vs. Woodbury to the effect that if the home ranch is in one county and the cattle are grazing in another county, they are assessable in the county in which the home ranch is situated and not in the county in which they are found grazing, is deemed to very strongly by the Elko Independent and one or two other papers, and they have rendered a minority decision. We presume the decision is intended to cover cases only where the home ranch is near the county line, and to cattle from the home range found grazing off the range, and over the line in an adjacent county. We are of the opinion that the Elko Independent's illustration is too strongly put. However our County Assessor should acquaint himself with the law and decision, as many cattle, we believe, are grazing in Humboldt county, while the home ranches of the owners are in Washoe county.

THE SECRET SOCIETIES MUST BE SUPPRESSED.

The fact is not generally known that the first Presidential ticket for 1884 has already been placed in the field. It has been nominated by the National Christian Association for the Suppression of Secret Societies, and bears the names of the Rev. Jonathan W. Blanchard and Mr. John R. Conant. It is well enough to get one's mind familiar with the names of the candidates now, for after the election they will not be heard of in the returns. The National Christian Association has taken a large sized job on its hands, which may possibly suppress them. But, then, it appears to be the special missions of some bigoted, half-brained idiots to reform the world, but like a soap bubble, they are all surface; and then emptiness is just as apparent. They flash for a moment, then suddenly explode and disappear for ever.

According to the Insurance Chronicle, the fire losses in the United States during the year 1882 were \$85,000,000. The sum, if subtracted from the profits of the year, would make a very perceptible decrease, and the wonder is that the reducing of so large an amount of capital to ashes is not more seriously felt. There are whole States that could have been blotted out of existence with less pecuniary loss than that caused in one year by fire. The taxable value of property, real and personal, in even so old a State of Arkansas, is less than last year's loss by fire.

The Secretary of the Interior has rendered a decision in which he approves the map of the definite location of the Northern Pacific Railroad through the Rocky Mountain Division, filed July 6, 1882. The line so approved departs from the line of the general route at Gallatin City and unites with it again at Little Blackfoot. One effect of the change between these points is to shorten the line some forty-three miles. It will also have the effect of reducing the land grant and restoring to the public domain more than a million acres of land.

S. J. Tilden is said to be interested in a scheme to secure the Croton aqueduct, in New York.—Ex.

Ex-Senator McDonald, of Indiana, intends to apply in 1884 for a patent to a Croton invention for an aqueduct for Mr. Tilden.

Now the situation is becoming more interesting, and a Sargent is wanted at Athens. The importation of American pork into Greece has been forbidden by the Government.

Sarah Burke and her Chinese lover have sailed for China.

THE NEVADA BOOM.

The Battle Mountain Messenger is disposed to insist that Nevada prospectors are somewhat to blame for the stagnation in mining affairs. It says:

Many of our exchanges are predicting a boom in Nevada mining properties during the coming Summer. It is the old cry. We live through the Winter, hoping Micawber like, that some thing will turn up in the Spring. When Spring comes and no boom, we wait for the Fall raise. We try and make ourselves believe that better times are coming, but they have not come so far, and from where are they coming? If the people of this State do not help themselves, can they expect others to help them. All our neighboring mineral States and Territories are in a flourishing condition and capitalists are investing in their mines, but they avoid Nevada or seem to do so. Are our mines less permanent than theirs or lower grade minerals? We think not, then why is it? Simply that many of our people are satisfied to sit beside an old mining prospect and wait for the precious metals to grow in the rock. Prospectors should remember that the day has passed that a hole in the ground can be sold for a large amount of money; also that capitalists will pay more for a mine than the prospects justify. Owners of mining properties should either open them up, expose their value, or orthodoxy, or give some enterprising persons a chance to do so, or if they have an opportunity to dispose of their properties, be willing to take a reasonable amount for the same. The average mine owner however thinks that he should make a fortune out of his property where there is nothing to induce intending purchasers to pay fancy prices for such property. How many mines are there in this State to-day, almost undeveloped, for which the owners ask \$50,000 and \$60,000, the actual value of which is not more than \$10,000 and some dear at \$1,000. As long as parties are satisfied to hold on to these undeveloped properties and when they have a chance to dispose of them at reasonable figures, refuse to do so, just so long will we remain without our mining boom.

Suspension of Works of Public Improvement.

The appropriations for the improvements of a large number of rivers and harbors will expire at the close of the fiscal year, and as the time approaches the cost and damages resulting from discontinuing the works are beginning to be calculated. The Engineers' Department look upon the failure of Congress to make provisions for works now in course of construction as a public calamity, and the metropolitan newspapers, which raised such a cry a year ago against the passage of the pending River and Harbor bill, are the first to call attention to the fact of the disastrous effects of a suspension of important works as brought home to them in the discontinuance of operations at Hell Gate and other improvements in the neighborhood of New York. Then, too, the Government suffers a serious loss, resultant upon the long period of inactivity upon the works now in an unfinished condition.

Civil Service Commission.

A Washington dispatch says the Civil Service Commission, in view of the fierce criticism which the appointment of Keim as Chief Examiner has drawn out, is likely to drop him. Judge Thoman, the Democratic member of the Civil Service Commission, said last evening that he thought they would withdraw the name of Mr. Keim, but at the same time publish a statement to show the wisdom of their action in appointing him. He says they took him without reference to his political affiliations, but fear now that they will be embarrassed by the howl raised against him. The President has not yet signed the commission of Keim as Chief Examiner under the Civil Service Commission. It is stated at the White House that the appointment will not be withdrawn unless the Commission express a desire to that effect, because it was made upon their recommendation.

Looking After Conspirators.

The English Government will, it is understood, ask the United States for the extradition of twelve Irish conspirators now in America. One report says that the request has already been made at Washington, that the officials had already had the matter under consideration for some weeks, and that it is tacitly understood that whenever the English Government shall make the request it will be unhesitatingly granted.

No appointment as Commissioner of Internal Revenue will be made at present. Deputy Commissioner Rogers is acting as Commissioner to-day, and will continue in that capacity until an appointment is made.

The dynamite Irish party threaten to blow up the Brooklyn bridge if it is opened on May 24th, the Queen's birthday.

Bliss' American Wonder peas, Ohio market potatoes, red, white and yellow top and bottom onion-sets, Arabian evergreen millet seed, white Russian oats and a full line of fresh field, flower and vegetable seeds are selling rapidly at Queen's drug store, at bottom prices.

Is Alum Poisonous?

Dr. Hall's Journal of Health, in a recent issue, says:

"This question has caused a good deal of discussion. Alum is used by many bakers to whiten their bread, enabling them to use an inferior flour. It is more extensively employed as a cheap substitute for cream of tartar in the manufacture of baking powders. It has not been considered immediately dangerous; although if continued it induces dyspepsia and obstinate constipation. But the fact that many cases of poisoning have occurred from baking powders which contained alum, puts the question in a more serious aspect, and prudent people will exercise caution in the selection of baking powders. Under what conditions, then, does this substance—formerly used only for mechanical or medicinal purposes—become poisonous? They are certainly obscure, and at present we can only surmise what they may be. We suspect that the cause exists in the individual poisoned; some peculiarity of the constitution producing a morbid change in the secretions of the stomach, with which the alum combines and forms an active poison; or the secretions may be healthy but in unusual proportions, and that these less or greater proportions, in combination with the alum, constitute a poison. For example, two parts of mercury and two parts of chlorine form calomel, which is not poisonous; but change the proportions to one part of mercury and two parts of chlorine, and we get corrosive sublimate, which is a deadly poison. Then, again, we know nothing of the causes of constitutional peculiarities. Why is it that one person can eat all kinds of green fruits and vegetables with impunity, while the same course might cost another individual his life? One person can handle poison ivy and sumac without being in the least affected; another is poisoned if he approaches within ten feet of them. Out of a family residing in a malarial district, some of the members will suffer half the year with fever and ague, while the others will enjoy excellent health during the entire year. Foods that are wholesome to some persons are actually poisonous to others. This is especially true of some kinds of fish. There is no safety in taking alum into the stomach, as it is shown to be always injurious, and often dangerous. Baking powders properly compounded, and containing pure cream of tartar instead of alum, are more convenient than yeast; and bread and pastry made with them are just as wholesome, and far more palatable. We are in entire sympathy with the manufacturers of the Royal Baking Powder—who commenced and are vigorously conducting the war against the use of alum in baking powders. Before committing ourselves, however, we made tests of a sufficient number of baking powders to satisfy ourselves that the substitution of alum for cream of tartar in their composition has not been over-estimated, while a careful examination of the Royal Baking Powder confirms our belief that Dr. Motz, the Government Chemist, when he singled out and commended this powder for its wholesomeness, did it wholly in the interests of the public. We do not hesitate to say that the Royal Baking Powder people deserve the gratitude of the community whom they are endeavoring to protect. Will not some prominent manufacturer of pure candies follow their example, and expose the secrets of a business that is doing untold mischief to little children?"

"Then, again, we know nothing of the causes of constitutional peculiarities. There is no safety in taking alum into the stomach, as it is shown to be always injurious, and often dangerous. Baking powders properly compounded, and containing pure cream of tartar instead of alum, are more convenient than yeast; and bread and pastry made with them are just as wholesome, and far more palatable. We are in entire sympathy with the manufacturers of the Royal Baking Powder—who commenced and are vigorously conducting the war against the use of alum in baking powders. Before committing ourselves, however, we made tests of a sufficient number of baking powders to satisfy ourselves that the substitution of alum for cream of tartar in their composition has not been over-estimated, while a careful examination of the Royal Baking Powder confirms our belief that Dr. Motz, the Government Chemist, when he singled out and commended this powder for its wholesomeness, did it wholly in the interests of the public. We do not hesitate to say that the Royal Baking Powder people deserve the gratitude of the community whom they are endeavoring to protect. Will not some prominent manufacturer of pure candies follow their example, and expose the secrets of a business that is doing untold mischief to little children?"

Litigation is piling up against the Reno and Oregon Railroad, and it now looks as if nothing can be done toward completing the road for at least a year or two. This is to be regretted, as it would afford a convenient outlet to northeastern California.—Sacramento Bee.

No Use for Them.

Concerning Certain Relics of the Past—Dogs That Have Had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPSINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capsine is founded upon the partial successes, or the utter failure of its predecessors. Everything of value in the old porous plaster is retained in the Capsine; but at this point all comparison ends, and contrast begins. For example: The old plasters were slow in their action; the Capsine was quick and sure. The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capsine penetrates the system and permanently cures the troubles for which it is recommended. The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains. In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson's goes on its way winning golden opinions from all sorts of people. Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocritism is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are patented in name and style. Beware of swindlers. The genuine have the word CAPSINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

PRICE OF DAILY JOURNAL,

12 CENTS PER WEEK.

TOWN AND COUNTY.

BREVITIES

Hook Mason was in town yesterday.

Gov. Adams is steadily improving in health.

The Board of Commissioners will meet next Monday.

Yesterday did not furnish the traditional May day weather.

G. W. Mapes has returned from a trip to Humboldt county.

Wallace Coffin has gone to Benton to act as agent for the O. & C.

Peter Frazer has become an inmate of the county jail for 15 days for disturbing the peace.

It is said that the Sacramento parties who have money to loan have arranged to put out \$83,000 in this county.

The case of Smith vs. Logan, involving water property in Washoe county, was argued in the Supreme Court yesterday.

Senator Jones was a passenger for the Bay last night, where he has an important law suit on hand. He will return next week.

Our dealers in manufactured tobacco were busy yesterday in taking an inventory of the stock upon which they were entitled to a rebate on the stamp tax.

John Jones and Geo. Harrison pleaded guilty to vagrancy in Justice Young's court yesterday. Harrison was allowed to go on his own recognizance, and Jones was sent up for 10 days.

The JOURNAL office is indebted to Hon. Geo. W. Cassidy for a package of vegetable seeds from the Department of Agriculture. Persons desiring samples will be accommodated by applying at this office.

The V. & T. has made out a new time-table which went into operation Monday. The noon train now arrives at Reno at 12 m., instead of 12:20, and leaves at 2:15, allowing 35 minutes more time than heretofore.

Mrs. Wenzell is now prepared to please all the ladies. She has a magnificent stock of millinery goods fresh from the San Francisco and Eastern markets. Miss Golden has supervision of that department and will be pleased to see all her friends. See ad. in 50-cent column.

W. E. Sharon, nephew of the Senator, will succeed Capt. Taylor as Superintendent of the Yellow Jacket. Mr. Sharon, although a comparatively young man, is a very intelligent and energetic one, and the affairs of the company, should they be placed in his care, will be in good hands.

Now is the time, when nature has put on its carpet of verdure, when the gardens are brilliant with the hues of blooming flowers, and when the markets are beginning to be supplied with the early fruits, to see California under the most favorable aspects; and the sight will be one to make an impression of pleasure which time will not soon efface.

MEMORIAL DAY

The Note of Warning for Preparation.

There will be a meeting this evening at 8 o'clock sharp at the Armory of the Reno Guard, Odd Fellows Building, for the purpose of making arrangements for the proper observance of Memorial Day—May 30th. All members of the Reno Guard, Grand Army of the Republic, and citizens generally, are requested to be present and take part in the proceedings and start the ball rolling.

Cheap Fare.

The First National Bank, of Reno, has made arrangements to secure prepaid tickets from Havre, France, to San Francisco. The price is \$66, and persons here who have friends on the Continent whom they wish to come to this Coast can take advantage of the accommodation thus provided by steamer to New Orleans and over the Southern Pacific to California.

A Sanguine Prospector.

Jas. A. Scott, the carpenter, writes from Fair Play, El Dorado county, California, that his mining prospects there are very flattering; will turn on water in ten days; ditch is three-quarters of a mile in length, and 450 feet of seven inch pipe will be laid in position this week.

Preparing for Business.

A. H. Manning is building a house on his lot, corner Virginia and Third streets. It will be the headquarters for this country for Baker & Hamilton's goods, of which Mr. Manning will carry many carloads.

A splendid stock of fresh garden, field and flower seeds just received at Osburn & Shoemaker's.

STOCKS.

Good Signs of an Impending Market.

The developments on the Comstock during the past three days are of the most hopeful nature. The Carson Appeal says it has good information from Virginia relative to the present outlook, and casting aside all rumors and doubtful information, can state positively that there is sixteen feet of good milling ore in Union and nine feet in Sierra Nevada. This ore is reported as running all the way from \$20 to \$60 a ton, and the report of averages also vary. The highest average assigned to this ore is \$35, and the lowest a trifle over \$25 a ton. On Sunday numbers of leading mining men from San Francisco went up to look at the north end and Hale and Norcross.

THE NORCROSS DEVELOPMENT.

The best informed buyers do not place much confidence in Norcross despite the efforts to boom it, and taking it as a whole it looks as if the efforts now being made in that direction were made to attract attention away from the north end stocks. During the flurry in Norcross hundreds of holders of Union, Mexican and Sierra Nevada sold their stock to get into Hale & Norcross, and thus the north-enders rank lower than they have been quoted at for years, and the insiders took up all that was dropped and got the stock at bed-rock prices. There is nothing more than a prospect in the middle mines as far as any outsider is able to see with his own eyes, and the movements of the management only puzzle the operators. In the north end, however, the ore is there to be seen.

SHARON'S HAND AGAIN.

For several years past ex-Senator Sharon has kept aloof from the Comstock, alleging that there was no possible chance for an outsider to play the game so long as the Bonanza firm sat down upon everything and ran it purely on the close corporation and freeze-out plan. Sharon, however, suddenly pops up with a controlling interest in Yellow Jacket. Having caught the old management napping, he slipped in with \$50,000 and bought up the control almost before anyone knew he was in the field. There is at least \$10,000,000 of low grade ore in this mine near the surface in the old abandoned levels, passed by in the flush times when only the richest rock was sought after. Stockholders will be glad to know that Sharon is once more on the Comstock ready to take an active hand in stocks. This means a lively market and deals where there is any chance for them. Sharon is willing to make a deal and let the public make some money for themselves.

THE MINERS.

Who are pretty good authority on actual merit in stocks, have begun to buy heavily during the past ten days and the brokers in Virginia City report that more miners are putting their money in stocks than for two years past.

THE CARSON & COLORADO.

The Road to Stop This Year at Owens Lake.

The Carson & Colorado railroad will be built to Owens Lake this year, and then the work will stop, until the route southward has been definitely decided upon. Enough is already known to enable the JOURNAL to state the original intention of connecting with the Southern Pacific, at Mohave, will never be carried out. There is much more nutriment in it for the road to form a junction with the Atlantic and Pacific at The Needles, but the entire matter is in a very uncertain state, and the idea is to thoroughly understand the situation before proceeding further with the construction of the road.

Feeling in Elko.

The people of Elko raised a purse and have sent the family of Thos. Dunkin, who was recently sent to the State Prison through the evidence of his pal, Huyek, to her friends in Kansas. Huyek when released, fled the county, fearing he would be lynched by the citizens of Elko. The Independent says "the greatest sympathy is felt here for Mrs. Dunkin and Mrs. Huyek, both of whom are most estimable ladies, and deserving of better fortunes than have fallen to them through the misdeeds of their husbands."

Roll of Honor.

The following is the roll of honor in Bishop Whitaker's School for Girls for the month ending April 25, 1883: Armenta Grignon, 99 7/10; Kitty Grignon, 98 9/10; Mary Franklin, 98 1/2; Agnes Rowland, 98; Cora Manning, 97 1/4; Hattie Rowland, 97 1/4; Nellie Strong, 97 1/16; Emily Cutting, 97 1/16; Mary Strong, 97 1/16; Emma Baker, 97; Josephine Peterson, 96 1/2; Ida Pullman, 96 1/4; Janey Vossburgh, 96 1/4; Abby Mason, 96; Lula Ludlow, 95 1/2.

You can buy a first-class sewing machine twenty-five per cent cheaper at Osburn & Shoemaker's than elsewhere in the State.

The best known remedy for coughs and colds is the Infalible Cough Mixture prepared by Osburn & Shoemaker.

"THE LITTLE NAPOLEON."

Johnny Skae Reemerging His Fallen Fortunes.

For a long time past Johnny Skae, the "Little Napoleon," as he was termed by his admirers during the big deal in Sierra Nevada, has not been very prominently before the public gaze. When the big deal was over Skae was generally supposed to have been wrecked mentally, physically, and financially, and but few were found to do him reverence. But the silver lining is appearing to his cloud and the "Little Napoleon" bids fair to once more float on the crest of the topmost wave. His Virginia and Gold Hill water stock has worked itself out of "soak" and has been restored to him. It is almost as good property as Panama railroad stock. Mr. Skae, or rather Mrs. Skae, had at the time of the "bust up" some real estate on Market street, near the new city hall, San Francisco, upon which a block of buildings is now being erected, and which is proving itself most desirable property. A few years of smooth sailing and Skae will have a very healthy bank account. The JOURNAL wishes him the best of luck.

Carson Republicans.

The Republicans of Carson have placed their municipal ticket in the field. It is as follows:

J. Muller, Trustee at Large.
E. Edgecomb, Trustee for First Ward.
J. H. Kennedy, Trustee for Second Ward.

The following gentlemen were appointed on the City Central Committee: F. Coffin, George Thaxter, A. M. McCabe, C. A. Witherell, D. G. Kitzmeyer.

The Convention adopted the following resolutions:

Resolved, That this Convention, as representative of the Republicans of Carson City, recognize with pleasure and refer with pride to the extended, able and prosperous administration of the General Government by the National Republican party, and believing that the success of the principles of this party is essential to the welfare of the nation, the commonwealth and the community in all public affairs, from the greatest to the least, therefore,

Resolved, That we call upon all patriotic and well-disposed citizens to join with us in the election of competent and careful municipal officers.

Resolved, That this Convention, and the nominees thereof, are pledged to the most economical administration of city affairs compatible with efficient government.

Somebody's Child.

Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbor's, take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung had been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpassed cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-sw-lyr.

Cigar Emporium.

At E. Meyers' cigar emporium can be found the best and most popular brands of cigarettes, smoking tobacco, and all else usually found in a first-class store of the kind.

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

PORTLAND

MINING

AND BLASTING

POWDER

of superior quality, fresh from the mills. It is constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way superior to any other Powder.

We have been awarded successively

THREE GOLD MEDALS

the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others.

HERCULES POWDER.

Which combines all the force of other strong explosives now in use, and the lifting force of the best Blasting Powder, thus making it vastly superior to any other compound now in use.

circulate containing full description of this Powder can be obtained on application. There are any of our Agents.

JOHN F. LOHMEYER, Secretary, Portland, Me.

MOUNT ST. MARY'S ACADEMY.

MOUNT ST. MARY'S

ACADEMY,

— CONDUCTED BY —

SISTERS OF ST. DOMINIC,

RENO, NEVADA.

The course of study embraces the various branches of a solid and useful education. The Scholastic Year is divided into two sessions of five months each, beginning respectively on the first Monday in February, and closing the last of June. Pupils are requested to enter at the opening of the session; but, they will be received at any time during the year, their sessions dating from the time of entrance. Public examinations are held annually. Private Literary and Musical Rehearsals every month.

TERMS, INVARIABLY HALF YEARLY IN ADVANCE

Board and Tuition in English Branches, Washing and Ironing, Plain and Fancy Needlework, Bed and Bedding, per Term, including Tuition on Piano.....	\$150
Vocal Music in Class.....	10
Vocal Music, Private Lessons.....	20
Drawing.....	20
Painting.....	30
French and German, each.....	15

No advance will be made by the Institution for Books, Stationery, Materials for Drawing, Fancy work or other incidental expenses of the pupils, unless funds for the purpose are deposited with the Treasurer. This regulation is considered indispensable, and will be in all cases most strictly observed.

Each pupil must be provided with a Toilet Box and all necessary articles for the toilet.

No particular uniform is required, but each pupil must bring four changes of underwear, dark skirt for every day use, and one pair of blankets.

No deduction will be made for the withdrawal of pupils before the expiration of the term unless in case of sickness.

All letters sent or received are subject to the inspection of the Sister Superior. All Trunks, Boxes or Parcels must be prepaid.

For further particulars address,

SISTER SUPERIOR.

BISHOP WHITAKER'S

SCHOOL FOR GIRLS
